About us

Canberra Consulting focuses on delivering highly skilled and qualified professionals to our clients. Canberra Consulting has the experience and the capability to understand your specific requirements and match them to the right environment, ensuring professional satisfaction and ongoing development opportunities. Our focus is ensuring that both you and our client are a good match and that we give you every opportunity to succeed.

The Opportunity

The IT Applications (Salesforce) Developer is a programming position and is responsible for providing technical guidance and strategic advice by building and sustaining relationships with staff, stakeholders and vendors through clear communication to ensure the ongoing functionality and enhancement to the Organisation's IT Business Applications.

Key responsibilities include:

- Work with internal stakeholders to create solutions in line with the ICT strategic plan by providing direction and advice
- Manage and adapt existing IT applications to ensure ongoing functionality
- Present and lead discussions with stakeholders by building productive relationships
- Ensure all implemented solutions meet cyber security and business continuity requirements

To be successful in this role, you will need:

- 3+ years in Salesforce development experience, either back-end or front-end focused, with Full Stack being highly desired
- A solid understanding of technology concepts, Apex, Salesforce Community Cloud, Salesforce Cloud, LWC, JavaScript, and declarative approaches

All candidates applying for this position must be an Australian Citizen and have a current Baseline Clearance, or the ability to obtain.
