Are you a seasoned Server Database Administrator with a passion for managing complex databases across a range of technologies? If you're looking for an exciting opportunity to showcase your expertise and contribute to a dynamic organisation, we want to hear from you.

Overview

As a Server Database Administrator, you will play a vital role in ensuring the integrity, performance, and security of our client's database systems. You will be responsible for managing a diverse set of technologies, including Microsoft SQL Server, Oracle, MySQL, and more. This role is ideal for someone who thrives in a challenging and collaborative environment, excels in troubleshooting and problem-solving, and enjoys staying updated with the latest database trends.

Key Accountabilities

- Administer, maintain, and optimise database systems, including Microsoft SQL Server, Oracle, MySQL, and more.
- Monitor database performance, implement tuning and optimisation strategies, and troubleshoot issues as they arise.
- Perform routine backups and ensure data recovery processes are in place.

- Develop and maintain database security protocols and access controls.
- Collaborate with development and infrastructure teams to support application deployment and integration.
- Assist in planning and executing database upgrades and migrations.
- Stay current with industry best practices and emerging database technologies.

Key Requirements

- Proven experience as a Database Administrator with a strong background in managing Microsoft SQL Server, Oracle, MySQL, and other database technologies.
- Familiarity with database security, performance tuning, and backup and recovery solutions.
- Excellent problem-solving and troubleshooting skills.
- Strong communication and collaboration abilities to work effectively with cross-functional teams.
- Bachelor's degree in Computer Science, Information Technology, or a related field (or equivalent work experience).
- Relevant certifications (e.g., Microsoft Certified Database Administrator, Oracle Certified Professional) are a plus.
- Proactive attitude and a commitment to continuous learning and improvement.

If you're a passionate Server Database Administrator ready to take your career to the next level and thrive in a supportive and innovative environment, we encourage you to apply.
