More jobs from this company

Our client is in search of a proactive technical Application Developer to specialise in Azure, Microsoft Dynamics 365, and Microsoft Power Apps.

The IT Application Developer will play a vital role in shaping, building, integrating, and maintaining new and current functionalities within a corporate environment centered around Dynamics 365 CRM and Power Platform. They will lead the technical aspects of development and employ an agile approach to foster collaboration and streamline service delivery.

The ideal candidate will possess:

- Extensive expertise in crafting solutions using C# and .NET.
- A proven track record of developing with a range of technologies, including Azure C# functions, Microsoft Dynamics plugins, Microsoft Dynamics custom workflow steps, and Microsoft Power Platform.
- A keen focus on aligning technology with business needs, adept at interpreting business requirements and translating them into effective technological solutions.
- A penchant for innovation, consistently exploring novel strategies to enhance existing methods, and demonstrating excellent communication skills when engaging with stakeholders.
- A natural leader who not only leads by example but also empowers and guides others to embrace change.

While formal qualifications in software development and substantial experience in a software engineering or related role, with a strong coding background, would be highly valued, they are not mandatory.

This is a permanent role based in either Brisbane CBD, Canberra CBD, Melbourne CBD or Sydney CBD.

It is essential that the successful applicant is an Australian citizen.

For more information, please contact Recruitment Partner Cindy Nguyen at cindy.nguyen@harrisonmcmillan.com.au

Please submit your application via Seek in Word format. Please note, only shortlisted candidates will be contacted.

Employer questions

Your application will include the following questions:

How many years' experience do you have in a software development role?

Which of the following statements best describes your right to work in Australia?

How many years' experience do you have as an applications developer?

Do you have extensive experience in crafting solutions using C# and .NET?

Do you have a formal qualification in software development and/or substantial experience in a software engineering or related role? Please explain

Be careful

Don't provide your bank or credit card details when applying for jobs.
