Software Developer

Negative Vetting 1 security clearance required prior to commencement

Lengthy 19 month role (to June 30th 2025)

\$140 - \$165 per hour inc super

Symonston ACT

ID: 1138352

WHY CHOOSE EFFECTIVE PEOPLE?

- We pay fortnightly with in-house payroll
- Salary packaging & bank your hours
- Novated leasing, corporate discounts & security clearance sponsorship

Our Federal Government clients requires the services of Level 3 Advanced Practitioner - Platform Services Software Developer to undertake technical hands-on work to develop the departments Platform Services and meet the standard requirements.

This will include configuration of the hosting environment, development and integration of platform services applications to meet capability and security requirements.

ABOUT THE JOB:

- Develop software applications independently or as part of a team
- Contribute to software requirements specification and design documentation
- Support system troubleshooting activities

- Provide technical advice to both internal and external stakeholders
- Offer regular progress updates and advice to management and the development team

THE SUCCESSFUL CANDIDATE WILL HAVE:**Essential:**

- A minimum of 8 years of experience in software development, with a strong command of C/C++ 11.

Desirable:

- Proficiency in developing software for Linux operating systems.
- Expertise with publish-subscribe middleware, such as OMG DDS, MQTT, or similar.
- Adept at providing technical advice that aligns with broader business requirements.

Preferred:

- Experience with military electronic systems integration (e.g., Avionics, Naval Combat Systems) or high-reliability software development (e.g., rail industry systems).
- Understanding of systems engineering processes.
- Proven track record in developing technical documentation.
- Proficiency in working within Agile project management frameworks.
- Familiarity with code management tools like Git and Azure DevOps.
- Experience in contributing to an agile software development team, including Test-Driven Development, Code Quality Review, Estimation, software design, and review.
