### [More jobs from this company](#)

At Holocentric Federal Government, we offer more than just a job; we offer an opportunity to shape the future. As a part of the Volaris Group, we are committed to providing an exceptional employee experience and are committed to developing our team through continuous professional development. If you thrive on challenges, aspire to achieve extraordinary results, and want to maximise your potential, we want to hear from you.

We are growing and are seeking a **Solutions Developer** to join our Canberra based team. We provide flexibility to work from our office, home and client sites. The Solutions developer will join a team of 8 people and bring along expert knowledge in design and product improvement.

### Your day-to-day will include:

- Participation in design meetings with Holocentric Professional Services team and/or customers, providing technical advice where required
- Implementation of designs as web views using HTML/CSS/JavaScript/Vue skills
- Implementation other solution extensions including metamodel updates, reporting enhancements and general scripting changes
- Providing ongoing technical advice to the solution team around web technology and best practice
- Participation in Professional Services practice development and internal improvement projects
- Participation in internal platform design and development projects as required
- You will act as a mentor and support junior developers and team members.

**Our ideal candidate will have:**

- A degree in Computer Systems, Engineering or IT, and
- Experience in back-end platform development, front end website development, business modelling concepts and automating business functions through scripting or coding
- Experience with JavaScript, HTML, CSS and Vue (or other JavaScript frameworks) for single page applications
- An ability to quickly learn and apply complex new technologies and strong analytical and problem-solving capabilities
- An ability to apply Object-Oriented principles, including UML and design patterns, data structures and algorithms
- Good organisational and problem-solving ability.
- A willingness to learn and extend knowledge in support and technical areas
- Relational Database Experience (SQL Skills), experience with Graph Databases would be highly valued.

Holocentric Federal Government is a part of Volaris, an operating group of Constellation Software Inc. With over 45,000 customers in over 50 countries and a proven track record of consistent growth, we are establishing a broad portfolio of software businesses to provide our customers and shareholders with exceptional returns.

We are all about finding the right people for the right role and allowing them the opportunity to directly contribute to the successes of our organisation. Our employees are experts in their field, passionate about what they do and always looking for new and better ways to solve our industry's problems. Our staff come from a wide range of cultural, educational, and geographic backgrounds and can work in a dynamic entrepreneurial environment that values individual perspectives. We offer competitive compensation, a comprehensive benefits package, and the chance to learn from the best in the business.

**Your next step:**

If you're interested in joining the Holocentric Federal Government team, please submit your resume and a compelling cover letter via the 'Apply Now' button on Seek.

Don't miss this chance to be part of a leading Australian software enterprise with big plans for our people and our business. Your journey begins here.

## Employer questions
